

Liferay Migration Analysis Program

IT ALL STARTS WITH A PLAN

Projects become much easier when a plan is in place. Liferay Migration Analysis Program is designed to provide a master plan for migrating your DXP project to our DXP Cloud platform. Your system team will find the DXP Cloud platform straightforward to leverage, saving time for other key business initiatives. Our Global Services team has worked on a variety of DXP migration projects and has the expertise in creating a defined plan that identifies the best migration path and risk mitigation strategy. With an optimal plan in place, you and your team will have clarity transitioning to a platform optimized to run your Liferay DXP projects.

Liferay provides full implementation services under a separate program. For additional details, please contact your account manager.
